

**DAWSON DEAD
STILL SOUGHT
BY SEARCHERS****Hope of Finding Men
Alive Abandoned**

(By Associated Press)
DAWSON, N. M., Feb. 10.—Covered with a thin blanket of snow, Dawson today continued to search for her dead in the torn recesses of Mine No. 1, owned by the Phelps-Dodge corporation, which was wrecked Thursday by an explosion.

With the recovery shortly after 6 o'clock this morning of three more bodies in the shattered passageways, the total dead has reached 41. Official figures say there were 120 men in the mine when the explosion occurred. Two emerged yesterday unharmed. Seventy-nine still remain in the mine. The work of recovering the bodies is proceeding rapidly today. New shifts of workers are entering the tunnel every few hours and repairmen are working step by step with those who are searching the ruins for additional bodies.

Only a small knot of spectators stood about the mine entrance today. Two days of realization of the enormity of the catastrophe have given relatives and friends of the entombed miners a spirit of resignation which is reflected in their unemotional demeanor. Hope has been abandoned virtually that there are any men still alive in the mine.

Experienced mining men here point out that Mine No. 1 is a dry mine, particularly at present. With the exception of Crosscut No. 4, from which the only two survivors of the disaster escaped, and another crosscut deeper in the mine, the tunnels are barren of water. This indicates, they assert, that it would be impossible for the entombed miners, if any survived the explosion and sealed themselves in isolated compartments, to exist for any considerable length of time.

Mystery Not Solved
Reports of survivors yesterday that they had heard voices in an adjoining passageway Wednesday gave rise to the belief that at least four men still lived within the workings. The rescue crew reached the vicinity of the spot where Martinez and Candale, the survivors, had taken refuge and found four bodies. Whether these men lived through the night or died when the explosion occurred probably will remain one of the mysteries of the tragedy.

Investigation after the terrific detonation, which rent the interior of the vast workings like tissue paper, revealed that the center of the blast apparently was near the heart of the mine. Its cause still was unexplained today.

The victims apparently died instantly. Many were mutilated by falling debris. All thus far found dead apparently were killed by the concussion, a spurt of flame and dust shot from the mouth of the main tunnel as the blast occurred, shattering exterior concrete work.

Scott Du Pont, general underground superintendent of the mine, was slightly burned and cut as he was struck by the force of the blast. Several others near the entrance were knocked unconscious.

Mine Foreman Missing
Albert English, Jr., mine foreman, was one whose body had not been recovered. His father's body was taken from the mine yesterday. When an explosion on Oct. 22, 1913, wrecked the Stag canon mine, No. 2, close to mine No. 1, Arthur English, brother of the foreman of mine No. 1, was killed.

Among the victims were men who had spent virtually their entire lives tapping the underground wealth of the southwest.

During the night workers penetrated to a depth of more than four thousand feet into the main tunnel, clearing the shaft as they went and walling up and stopping crevices and cross cuts to facilitate the flow of fresh air and expulsion of gases.

Special religious services were to be held today by Dawson pastors for victims whose bodies had been recovered.

A coroner's jury which began its work last night resumed today the viewing of the bodies and the investigation of the disaster.

**BOYS HELD IN JAIL
AFTER AUTO WRECK**

ELYRIA, Ohio, Feb. 10.—Howard Walker, 19 years old, son of Police Chief Theodore Walker, of Lorain, is in jail here today.

Bernard Herren, 18 years old, of Lorain, is in the local hospital with a wound in his face.

The automobile of Senator J. F. Burke, of Elyria, was wrecked early this morning at the Cottesbrook bridge with the boys in it.

The machine was stolen from the front of the M. E. church in Elyria last night.

Police are investigating. The boys attended the Oberlin-Lorain high school basketball game at Oberlin last night and were on their way home when the accident happened. Young Herren told his father that they missed the last car at Oberlin and were given a ride by two men who robbed them and fled when the machine was wrecked at the bridge.

Fire in Philadelphia**Causes \$400,000 Loss**

PHILADELPHIA, Feb. 10.—Fire swept through six buildings in the commercial district and for a time menaced the historic Christ church and many nearby structures today. Loss was estimated at \$400,000. After a stubborn battle of four hours the fire was under control.

Fiance of Duke

Lady Elizabeth Bowes-Lyon

Over in England they call her Lady Elizabeth Bowes-Lyon, fiancee of the Duke of York. Out in Chicago she'd probably be known as Lizzie Lyon, who's gonna marry Albert York. But that's neither here nor there.

**REWARD FOR CAPTURE
OF CRIMINAL IS ASKED
BY MEXICAN DANCER**

(By United Press)
HOUSTON, Tex., Feb. 10.—Mrs. Catherine Uribe, pretty Mexican dancer, today asked for her reward for the capture of Phil Alquin, Pacific coast criminal, arrested in Freeport, following his deportation from Mexico.

The reward she wants, according to a telegram from the petite dancer, is the release of her husband and brother-in-law, who are in prison. The release of the two Uribe boys was expected to be the final step in an agreement whereby California authorities hope to rearrest Clara Phillips, "hammer murderer" now in seclusion in Mexico.

Chief of Police Oaks of Los Angeles refused to pass on the claims of Mrs. Uribe and a dozen other persons who asked credit for the capture of Alquin. The dancer claims she exerted her influence with Mexican officials and brought about Alquin's deportation.

**INVESTIGATOR SEEKS
AN OUTLET IN EUROPE
FOR FARM PRODUCTS**

(By Associated Press)
WASHINGTON, Feb. 10.—An investigation of the economic conditions in the United Kingdom and various European countries, particularly with a view to increasing the outlet for American farm products in those countries, is to be made by Charles J. Brand, consulting specialist in marketing of the department of Agriculture, who sailed from New York today on the President Roosevelt as a special representative of Secretary Wallace.

Particular attention will be given to Mr. Brand to conditions surrounding the livestock and meat packing industry and the distribution of other farm products. A first hand study of the general factors influencing present and prospective production and demand for agricultural products in relation to the United States will be made by Mr. Brand in the British Isles, France, Italy, Switzerland, Germany, Belgium, Netherlands, Austria, Denmark, Norway and Sweden.

Particular attention will be given to Mr. Brand to conditions surrounding the livestock and meat packing industry and the distribution of other farm products. A first hand study of the general factors influencing present and prospective production and demand for agricultural products in relation to the United States will be made by Mr. Brand in the British Isles, France, Italy, Switzerland, Germany, Belgium, Netherlands, Austria, Denmark, Norway and Sweden.

A corner's jury which began its work last night resumed today the viewing of the bodies and the investigation of the disaster.

**Ohio Bill Would Amend
Compensation Statute**

(By United Press)
COLUMBUS, Feb. 1.—A bill aimed to amend the Ohio Workmen's compensation act is expected to be introduced in the senate early next week by Senator Gardner, Cincinnati.

The chief aim of the proposed legislation is to provide minor changes in the manner in which the law is administered; to provide further for the rehabilitation of injured workmen; and to protect employers from what they are now alleged to be unfair in the "open liability."

**Miners, Operators Settle
Remaining Differences**

(By Associated Press)
BALTIMORE, Md., Feb. 10.—With the maintenance of the present wage scales having been agreed upon, the representatives of the Northern West Virginia Coal Operators' association and their miners, final settlement of remaining differences between them was expected today at their conference here. Chief among the few details of the agreement remaining to be in-law from the Los Angeles jail, saving machinery in the mines. Members of the committee debating this subject concurred in the opinion that it would be settled amicably.

**SENATE PUTS
SHIP MEASURE
AHEAD OF DEBT****Action Has Approval
of President**

(By Associated Press)
WASHINGTON, Feb. 10.—Although the senate finance committee was meeting today to consider legislation by which the house approved the British debt settlement agreement, the time of senate action on it was problematical. The house approved the debt agreement yesterday by a vote of 291 to 44, only one Republican joining a minority of the Democratic members in opposition.

The shipping bill meanwhile had taken a position ahead of the funding legislation in the senate, Chairman Jones, of the commerce committee, having called up the former measure yesterday immediately after passage of the army appropriation bill. He announced that the ship bill would not be laid aside except by a vote of the senate, and its consideration ahead of the debt legislation was said by other senate leaders to have the approval of President Harding, with whom Senator Jones conferred early in the week.

Farm Bloc To Lose
Although a movement was under way today among some members of the senate farm bloc to get the shipping bill laid aside in favor of the Capper truth-in-fabric legislation, supporters of the bill were confident that the movement would be frustrated. It was started during Senator Jones' address on the shipping bill yesterday, the most impassioned he has yet made in support of the measure and which led to a heated discussion of the legislation.

The house voted approval of the British debt funding agreement by an amendment to the existing funding statute which not only would specifically approve the terms of that agreement but also would authorize the American debt commission to make settlements "similar, but not more favorable in nature" with the other debtor nations. The vote followed four hours of general debate on the British debt agreement.

**INVESTIGATION WILL
FOLLOW CLEARING
OF MINE WRECKAGE**

(By Associated Press)
CUMBERLAND, B. C., Feb. 10.—Investigation of an explosion of fire damp in mine No. 4, of the Canadian Collieries (Dunsmuir) Limited, near here Thursday night the death list of which stood this morning at 33 has been halted to await clearing of extensive masses of fallen rock.

No explanation had been offered for the tragedy today. An explosion last August in the same mine that took 13 lives was attributed to ignition of fire damp by an electric spark that flashed when a cable leading to an electric drill machine broke. The nearest electric machinery, a pump and a compressor, was a hundred feet from Thursday night's explosion and neither device was in operation.

Bodies Are Viewed
A coroner's jury impelled last night viewed the bodies of 31 victims and adjourned until Feb. 16. An investigation has been ordered by William Sloan, British Columbia minister of mines.

Fourteen of the bodies recovered were of white men and 17 those of Chinese. Two Chinese are believed to be dead in the mine.

Additional details of the struggle to reach the mouth of the tunnel, two miles from East Drift No. 3, where the blast occurred, were related today by Robert Brown.

Brown and J. Gibb were working some distance from the scene of the explosion. Soon after they started to fight their way out of the bore, they fell over Jack Webber.

Placed in Hospitals
Today Brown and Gibb, companions of Webber, were in the Cumberland hospital, where they were among the six men hovering near death, knew that their struggles were useless. The air remained good in the chamber in which they had been at work and last night a mule that had remained quietly for 24 hours after the explosion was brought out alive.

As Brown and Gibb stopped to pick Webber, six men passed them on the run. Carrying Webber they soon came upon the bodies of the six who had run into afterdark. Warned by that, they turned back and encountered a Chinese known as "Big Sullivan," who said he could lead them out, but ignored his offer. He made his way to the outside unharmed. Encountering afterdark, the three were lying unconscious when a rescue team saw the electric lamps on their caps and brought them out.

**Ohio Leads All States
In Placing of Workers**

(By Associated Press)
COLUMBUS, Ohio, Feb. 10.—Ohio led all states in the number of workers placed through its City State Free Employment Bureaus during the month of December, according to statistics just compiled. These offices which were under W. J. Biebesheimer, chief of the labor statistics division, placed 15,063 in jobs during the last month of 1922. California came second by placing 12,797 workers. During the last quarter of the year, Ohio also led in the volume of business done by these offices.

FOOD PRICES DROP

WASHINGTON, Feb. 10.—The retail cost of food in 16 of 19 representative cities of the United States decreased between Dec. 15 and Jan. 15, the Department of Labor announced today.

Hawaii's Delegate

William P. Jarrett

William P. Jarrett, Hawaii's new congressman, will take his seat in the house on March 4. He succeeds the late Prince Jonah Kūhiʻkalaʻiano.

**INDIANA DELEGATION
AROUSSED BY WOOD'S
OPPOSITION TO NEW**

(By Associated Press)
WASHINGTON, D. C., Feb. 10.—Members of the Indiana congressional delegation were aroused by the opposition to the elevation of Senator Harry S. New, of Indiana, to a cabinet post. Indiana congressmen are expected to place themselves squarely on record as favoring the appointment of Senator New to the cabinet. It is known, however, that the senator is opposed to such action, believing that in the case of cabinet appointments the office should seek the man; but his opposition will not deter the members of the Indiana delegation from placing themselves on record as favoring his selection for a place in the cabinet.

The delegation is expected to adopt a resolution addressed to President Harding endorsing Senator New for the cabinet or to adopt a resolution repudiating the statement of Representative Wood on the ground that he had no authority to act as a spokesman for the delegation or to address a statement to the public placing the delegation on record as favoring New for a cabinet post.

Rep. Wood Influential
Representative Wood is a power in national Republican politics. He is chairman of the Republican congressional campaign committee. In his statement he said he was against Senator New's elevation to the cabinet because New had been repudiated by the Republican voters of Indiana at the primary election last year and should "take his medicine."

It had been indicated that the retiring Indiana senator would be made Indiana general when Postmaster General Work is transferred within the next few weeks to the secretaryship of the interior. Representative Wood stated today that he would go to the White House soon and enter his protest against New with President Harding.

**RUSSIA UNDECIDED
ON WAR ATTITUDE**

(By Associated Press)
MOSCOW, Feb. 10.—Russia has not yet determined what her attitude will be in event of a European or Near Eastern war. So far no occasion has arisen to necessitate such a decision.

This was the official comment today on a recent report that the soviet leaders after conferences here had decided to keep hands off in any war, unless Russia were attacked.

JUDGE KNAPP DIES
WASHINGTON, Feb. 10.—Judge Martin A. Knapp, of the circuit court of appeals, died here early today. Judge Knapp underwent two operations within the past ten days for an intestinal disorder but neither was successful.

Weather Forecast
FOR RICHMOND AND VICINITY
By W. E. Moore.
Snow or sleet late tonight or Sunday, probably mixed with rain. Strong and strong easterly winds tonight.

The succession of storms is rapidly crossing the central and southern states and now over the southwest indicates unsettled weather for the first of the week.

Temperatures Taken Yesterday at Pumping Station.

Maximum 34
Minimum 22
Today.

Weather Conditions—The southwestern storm moved rapidly eastward Friday night, causing rain, sleet and snow over central Indiana, rain over the south and snow over the southwest. Temperatures are quite warm over the gulf coast but it continues very cold on the Canadian border, where temperatures range from 10 to 20 below zero.

For Indiana, by the United States Weather Bureau—Snow probable tonight and Sunday. Not much change in temperature.

Paid Circulation
Yesterday, was
12,124

**KEEP LEADERS
OF GERMANY
OUT OF RUHR****France, Belgium Fear
Effect on People**

(By Associated Press)
PARIS, Feb. 10.—German cabinet ministers hereafter will be barred from the Ruhr by the Franco-Belgian forces. Premier Poincaré, of France, and Foreign Minister Jaspard, of Belgium, at a conference here today drafted a brief note to this effect, which was immediately delivered to the German embassies in Paris and Brussels.

The note reads:
"The Belgian and French governments have established that the visit of Chancellor Cuno in the Ruhr region and the action he took there had for its sole object and really resulted in the provoking of a dangerous state of excitement, particularly among the big industrial leaders, chief functionaries and government employees.

Would Avert Disorders
"Under these conditions the French and Belgian governments, anxious to avoid, especially in the interest of the population, disorders that might become sanguinary, and it necessary to inform the government of the reich, and the governments of the states, that ministers of the reich and of the German states will no longer be authorized to enter the Ruhr."

The conference between the French premier and the Belgian foreign minister, arranged for yesterday in Brussels after consultation between the Belgian cabinet ministers and M. La Troquer, French minister of public works, resulted in the reaching of complete unity as to methods of action in the Ruhr. General Degout, who the Belgians feel is sympathetic toward them, will remain in command as heretofore, and no interallied high commissioner will be appointed, as has been suggested in some quarters. M. Jaspard returned to Brussels today.

**DUBLIN CITY HALL
GUARDS ATTACKED;
DISPERSE REBELS**

(By Associated Press)
DUBLIN, Feb. 10.—A brisk exchange of shots occurred in Dublin last night when the city hall guard was attacked. Machine guns dispersed the assailants. Later a lorry load of troops was fired on.

The body of a man riddled with bullets was found on the road between Ballingarry and Mullinabone yesterday. A card attached to the body bore the words: "First of 50 spies."

**POSSESSES 5 MILLION
BUT WORKS AT \$18
WEEKLY TO BE "MAN"**

(By United Press)
CHICAGO, Feb. 10.—Working in self-inflicted poverty to prove he can make good, Vincent J. Lamb, 20 years old, Denver millionaire, was discovered here today writing quotations on a stock board at the B. L. Koppenghagen brokerage firm. His salary is \$18 a week.

The youth has legally arranged to have his \$5,000,000 estate and its income withheld until he proves he is "a man" by earning \$10,000.

"You see I made a fool of myself and was spending money like water," he said. "Then I got married to Miss Grace Ives, the daughter of an official of the First National bank of Denver. She took me in hand and I decided the only way to make good was to cut myself out from my income. So I did."

Answers Newspaper Ad.
"I got this job through an ad in the paper. It won't be long until I get something better and I'll have the \$10,000 in two or three years."

Mrs. Lamb is helping out the family finances by making her own way as a movie actress in Los Angeles.

The estate which Lamb inherited was from an uncle, Patrick O'Connor, who was formerly president of the Board of Trade in Omaha.

Charles Craine, manager of the brokerage company for which Lamb is working, declared he had no idea who the young clerk was.

"And it doesn't make any difference now that I know," he said. "If he wants to get ahead with us he'll have to show ability."

**GERMANY TO BUY LESS
CORN FROM AMERICA**

(By Associated Press)
WASHINGTON, Feb. 10.—Germany which took more than 30,000,000 bushels of American corn last year, will not require so large a quantity this year, the American agricultural representative in Berlin, Germany, reports to the department of commerce.

The American corn was used largely for the manufacture of alcohol after German food regulations limited the use of potatoes for that purpose to 30 per cent of the alcohol production. The limit now has been raised to 60 per cent and with the 1923 alcohol output estimated at 53,000,000 gallons the distilleries will require only about \$8,000,000 bushels of corn this year for that purpose.

**VETERAN AVIATORS
DIE IN PLANE CRASH**

(By Associated Press)
SAN ANTONIO, Tex., Feb. 10.—Funeral services will be held here tomorrow for Lieut. Frank Honsinger, 27, and Sergt. Joe Kelley, both of Kelley field, killed late yesterday when the Cambot plane from which they were dropping bombs in the war maneuvers being enacted before Brig. Gen. William F. Mitchell, assistant chief of the United States army air service, crashed near Laredo, Tex.

Honsinger and Kelley just had taken the air when in crossing an arroyo, a gust of wind caused their ship to bank and go into a nose dive. The gasoline tank exploded and both men were burned to death.

Thousands who had gathered to watch the maneuvers of the 90th aerodivision witnessed the accident.

Lieut. Honsinger, a native of Baltimore, Md., had been in the aviation service since 1917. He served with distinction in the World war and was known as one of the best and most careful pilots in the service. He leaves a wife and mother.

Sergt. Kelley, a Texan, had been in the army for years, the last four of which he served in the technical division of the air service.

Queen of Mobile

Miss Aletta Turner

Mobile, Ala., has not gone republican or royalist either, but it has elected a queen. She's Miss Aletta Turner. Looks quite good enough to grace any throne. Yes?

**LACK OF QUORUM
THWARTS INDIANA
SENATE MEETING**

(By Associated Press)
INDIANAPOLIS, Feb. 10.—Inability to obtain a quorum today caused the Indiana senate to abandon its attempt to hold the first Saturday session of the present assembly. The senate voted yesterday to return again this morning to take up a number of bills on third reading, but at 10 o'clock less than 30 members were in the senate chamber. A recess was taken in the hope that other members might appear, but at 10:30 a quorum was still lacking and adjournment was taken until 10 a. m. Monday.

Lieutenant Governor Branch announced that the senate and house would meet in joint session at 11 a. m. Monday for the observance of Lincoln's birthday. Ex-Senator Roscoe Kiper, of Booneville, will deliver an address on Lincoln.

The representatives adjourned without passing the general appropriation bill, which the leaders had hoped to send to the senate. This measure will be taken up Monday, according to present plans.

The appropriation bill has delayed the work of the house considerably, but leaders plan to expedite other matters when the appropriation measure is out of the way.

**DELAY IN TURK
ORDER CAUSES
RELIEF IN U. S.****Officials Have Feared
Hostilities**

(By Associated Press)
WASHINGTON, Feb. 10.—Action of the Turkish authorities in deferring execution of the order closing Smyrna harbor to foreign warships, except of limited size, occasioned momentous relief in official circles here.

American representatives in the near east have been watching the situation at Smyrna with much concern. There has been fear that the action of a local Turkish commander there might precipitate hostilities between the Turkish military and allied warships. This feeling it was learned today, was voiced in a conference between American and Turkish representatives at Constantinople several days ago in connection with the Smyrna harbor closure order.

The American viewpoint was expressed informally and in line with general instructions of the Washington government to representatives in the Near East to use their influence wherever possible, whether during the Lausanne conference or elsewhere to bring about amicable relations between the Turks and the allies. There has been no occasion as yet for any action in Washington in connection with the status of American ships in Smyrna harbor.

U. S. Ships Not Affected.
So far as official advices show, the Turkish authorities have not sought to apply the harbor closure rule to American ships, which are those of a power not at war with Turkey.

It is regarded as wholly unlikely therefore, that any new instructions will be forwarded to American naval commanders, unless a situation arises in which some definite stress is directed at American vessels. Reports on movements of the American destroyer squadron in Near Eastern waters indicate that they have been moving in and out of Smyrna with apparent freedom since the closure order was announced by the Turks.

PARIS, Feb. 10.—Rear Admiral Mark Bristol, commanding the United States vessels in the near East, boarded Ismet Pasha's train at Venice and assured the Turkish diplomat that the allies are most anxious for peace, the Petit Parisien said today.

Bristol informed Ismet the allies insisted that rapid conclusion of a treaty was necessary to Turkey's own interests.

Ismet was en route to Angora to report on the failure of the Lausanne conference.

There have been no further developments at Smyrna since the allied commanders and the Turks agreed to maintain the existing status quo pending diplomatic conversations to determine the foreign warships' right to remain in the harbor. The Turkish ultimatum, it was reported, has been further extended to give time for these negotiations.

LONDON, Feb. 10.—The latest information from Constantinople as well as from diplomatic quarters here indicates that nothing important has developed in the situation at Smyrna, where the foreign warships are said to remain, in defiance of the order from Angora. There is no confirmation of the report that the Turkish officials at Smyrna have reached an agreement with the allied naval commanders, whereby the status quo will be maintained pending diplomatic negotiations.

The Constantinople correspondent of the Telegraph tells how the commander of the American destroyer Litchfield met the Turkish order to leave Smyrna. The dispatch says that the vessel's commander admitted to the governor of Smyrna that the Litchfield registered slightly more than 1,000 tons, the limit set by the Turks, but explained that destroyers nowadays were necessarily fairly large ships, and that he would like to stay.

Determined to Stay.
The commander, however, supported this answer by adding that if permission was refused he had orders to remain anyway, and pointed out that it would be much pleasanter not to have any trouble. The governor thereupon gave his consent, the correspondent adds.

Nevertheless, a few minutes before the expiration of the time limit the Litchfield took a turn outside the harbor and then re-entered the forbidden waters.

Dispatches from Washington on Thursday said that the destroyer Edsall was the only American naval craft at Smyrna and that she, as a matter of fact, slightly exceeds the 1,000 ton burden mentioned in the Turkish order. Thirteen American destroyers, navy department officials said are at Constantinople, while six more are on duty at other stations in Turkish waters. There has been no previous mention of the Litchfield in connection with the Smyrna situation.

**Unidentified Man Plunges
To Death From Bridge**

(By United Press)
CLEVELAND, Feb. 10.—An unidentified man plunged from the high level bridge span into the Cuyahoga river was believed to be imbedded in the muck bottom of the river today. He jumped to his death 130 feet below, Friday while hundreds of motorists were passing by. The man, according to witnesses was walking slowly when he suddenly threw off his coat and climbed to the rail. There, balancing himself for a second with arms outstretched, he gave a cry and leaped. Coast guards dragging for the body failed to find any trace of it.
